Mayor Wood and the Trakers. MATOR Wood reveals, though he attempts to conceal, his disunion sympathies, in the encounge which he sent to the Common Council last evening, vetoing the resolution discontinning the Daily News as a Corporation paper That paper, it is generally known, has been

and is now supported principally by monies drawn from the City Treasury. Since the sement of our national troubles it has labored, to the axtest of its ability, to create on and civil strife among the people o the North. It has encouraged treason and defended these who have robbed the Government and taken up arms against the Republic. Tet the Mayor of this city, which has sent so many thousands of brave men to the de'ence of the Republic, uses the power attached to his office, to compel our citizens to support an

organ of disunion. The "responsible editor" of the News is the Mayer's brother-a lottery policy dealer, partner in the HACKLEY contract, and member of Congress elect. Whether BESJAMIN WOOD is, er is not his brother's alter ego in the direction of the News we cannot say, but when re uppears to take his seat in Congress, and the Union oath is administered, we may see how lightly that oath is esteemed by an avowed

friend of the secession sts. We live in strange times, but the strangest incident of the times would be the toleration by the people of this city, whose every interest is associated with the preservation and maintenance of the Union, of a band of un crupulous men who lengue together to plunder the city treasury, and to app y the taxes, imposed upon the people, for their own enrichment and the overthrow of constitutional government.

What action the Common Council will take upon the Meyor's vete we cannot anticipate. but every Alderman or Councilman who votes to sustain it will be stemped as an enemy of his country. There can be no more triffing with traitors. While we send forth men to fight fer the preservation of our institutions and voluntarily pledge ourselves to bear our full share of the expenses of the war, we cannot allow organs of our enemies to be sustained in our midst by these wto held positions of trust and large patronage in our City Government. so who are not for the Union are against it, and they must be dealt with as enemies.

More Sunday Theater Cases. THE suits against Sunday theaters, com menced a year ago, are reaching trial by degrees. The trial for misdemeaner, out of which grew the cecision of the Sapreme Coart sustaining the constitu i nality of the Sunday Laws, was followed this week by two civil suits by the House of Rafuge for the penalty of \$500 in the Superior Court. Verdicts were secured without calling a witness-the admission of the defendants being adequate, not withstanding their plea of contracts with Sanday actors. on of license, and like pretexts. It is refresting to have a law, and such a law. enforced, in face of factious and interested

A Good Bealening.

The arrest of Marchal Kame, of Baltimore, is refreshing news: It indicates that the lazy, good natured inculgence or tended heretofore to trai ers, has a limit somewhere-that it does not quite amount to that impotency, imbeelli ty or atter parillanimity, which the anxious bearts of the loyal have feared, and which in solant platters under the n so of the President have swollen themselves on. May we hope that this vigerous atop is also the farbinger of more of this sort-of a whole policy of this sort, in fact-which shall convince both friends and foes that the Government is in earnest and is net afraid? A policy of this stamp would soon embolden the Unionism of Baltimore to greet the patriot coldiery with something better than ambiguous silence. Of late, Baltimoreans have had little assurance of present of ultimate safety in any patriotic demonstrations.

Small Treases.

The 'Convention of Democratic Editors' was "called," as our readers know; but, lik-Owen Glendower's spirits from the vasty deep did not c me wher they were called. A handfal of rural editorial fry, of the smallest kind responded to the summons, but the whole result was, like many late operations of our Mayor and his fami y. an impotent fizzle. Not even the would-be tresson of the Albany Atlas & Argus ventured to show its bead with so slim a back ing. Bes. Wood came to time like a ' bald buc anser." upon whose callous brass, icfamy and reprodution are lost, and make no mark. A veromous ebu litten of his treasons ble bile was .jec ed, in the form of resolutions of the convention, which we print elsewhere for the curiosity of the public.

Regiment of Maine Volunteers arrived here yesterday by the steamer Bay State, and were received by the Sons of Maine resident in this ty at Pier No. 8 North River where the landed. The sons of Maine were marshalled by Mr. HAWKISS in two lines, on West street, and between these the regiment marched frem the deck, amid repeated cheers of welcome, both from the "Sone" and the thousands of spectators. Like all the New England regiments which have passed through the city, they were a fine body of men generally, and all well proportioned. Their uniform is of a dark gray hue, and they wear a high-erowned soft felt hat, gray colored, which can be buttoned upon four sides. They are armed with 1848 muskets, and are accompanied by their own band. The full regimental number is in the

A majority of the ragiment are also "Le-totallers" and even the use of tobacco appears quite limited among them. At five o'clook the regiment left the Park
